Read the paragraph. Find the text and answer the questions.

What toys can fly? Many toys can fly. Toy planes can fly because they glide through the air. How about frisbees? Frisbees can fly too. They spin and glide through the air. Can bubbles fly? They can float through the air. I have a new kite. Can a kite spin through the air. No, it can't. Kites can glide through the air.

1. What toys can fly? _____
2. Which toy spins through the air? _____
3. Which toy glides through the air? _____
