Read the paragraph. Find the text and answer the questions.

You don't have to be big to invent things. Children can invent things, too. What would you like to invent, Rebecca? I would like to invent a new machine or a new teddy bear that could walk. How about you, Barbie? I would like to invent a new robot that could do my homework and cook my dinner. I would also like to invent a new watch that could be used for time travel. Wow! That is a good idea.

1. What would you like to invent? _____
2. What would Rebecca like to invent? _____
3. What would Barbie like to invent? _____
